LIRR to Atlantic Avenue Terminal.

### About The Brooklyn Hospital Center

Since 1845, The Brooklyn Hospital Center has been dedicated to providing outstanding health services, education, and research to keep the people of Brooklyn and greater New York healthy. TBHC's focus is ensuring optimal patient care through the use of advanced technology, innovative medical and surgical treatments, and staff expertise. Located in the heart of Downtown Brooklyn, TBHC is a clinical affiliate of The Mount Sinai Hospital and an academic affiliate of the Icahn School of Medicine at Mount Sinai. As Brooklyn's first hospital, TBHC is proud to be a part of this incredibly diverse community and is committed to *Keeping Brooklyn Healthy*.

### About the Mount Sinai Health System

The Mount Sinai Health System is New York City's largest integrated health delivery system encompassing seven hospital campuses, a leading medical school, and a large network of ambulatory practices throughout the greater New York region. Mount Sinai's vision is to produce the safest care, the highest quality, the highest satisfaction, the best access and the best value of any health system in the nation. Physicians are affiliated with the renowned Icahn School of Medicine at Mount Sinai. The Mount Sinai Hospital is ranked one of the nation's top 20 hospitals in Cardiology/Heart Surgery.

# BROOKLYN, TAKE HEART!

WORLD-CLASS CARE WHERE YOU NEED IT MOST

## **The Brooklyn Hospital Center-Mount Sinai Heart Comprehensive Cardiac Care Program**

### **A clinical partnership in Downtown Brooklyn**

The Brooklyn Hospital Center (TBHC), the oldest hospital in the borough, has partnered with Mount Sinai Heart, part of the renowned Mount Sinai Health System, to bring comprehensive cardiac care to Downtown Brooklyn. This alliance, built on the foundation of excellent care provided by TBHC's cardiologists and clinicians, makes it possible for TBHC to offer sophisticated preventive, diagnostic, interventional, and treatment services. This program is supported by a joint cardiology fellowship under the Icahn School of Medicine at Mount Sinai. Primary cardiology services are also offered through TBHC's Family Health Centers and other sites in TBHC's ambulatory care network. Together TBHC and Mount Sinai Heart are *Keeping Brooklyn Heart Healthy*.

### **Local, quality heart care**

When it comes to excellent heart care, time saved means lives saved. The communities of Downtown and North Central Brooklyn have a significant need for interventional heart care and treatment services. For the nearly 1 million residents of nearby neighborhoods, the enhancement of TBHC's cardiology program means local, quality, compassionate heart care—all without crossing a bridge.

### **Sophisticated services**

Mount Sinai Heart's Cardiac Catheterization Laboratory has a 19-year-long track record of offering the highest level of patient safety in New York State. With the expansion of these services under Mount Sinai Heart's direction, the newly enhanced Brooklyn Heart Center aims to grow TBHC's already excellent cardiac program into a destination service for Brooklynites.

### **Comprehensive offerings now include:**

- Diagnostic catheterization
- Percutaneous coronary intervention (PCI)
- Electrophysiology (EP) studies
- Echocardiography, treadmill stress test, nuclear stress test, and cardioversion
- Heart failure program
- Regular cardiac care
- Diagnostic angiography, peripheral angiography, and implantable loop recorder services
