

CMO Update

A Publication for TBHC Physicians

Vol. 4 - October 2014

Dear TBHC Physician,

I am pleased to announce that TBHC is now officially a Clinical Affiliate of Mount Sinai Hospital and an Academic Affiliate of The Icahn School of Medicine at Mount Sinai. Ranked 16th out of nearly 5,000 hospitals in the nation, Mount Sinai is a truly wonderful organization to be aligned with.

We are confident this new relationship will benefit our patient population, local residents and you, TBHC's dedicated physicians. As I write this letter, discussions are underway on how our organizations can collaborate on new clinical initiatives that will allow us to expand our strategy in population health management as well as deliver quality care to Brooklyn residents.

We are working closely with Mount Sinai on a Delivery System Reform Incentive Payment (DSRIP) plan. TBHC is the Northern Brooklyn lead for the Mount Sinai

DSRIP efforts. Our collective vision is to create a population health-focused, integrated delivery system that improves the quality of care and health outcomes in Brooklyn. Efforts are underway with TBHC's community based partners and physicians to structure workgroups and develop processes to drive DSRIP projects.

This fall, we plan to hold a series of events to introduce the Mount Sinai and TBHC clinical leadership to one another, and to promote our new relationship. I will keep you updated as we proceed with these and other important initiatives.

Gary Almedo Stephens, MD
Chief Medical Officer

The Brooklyn Hospital Center
Keeping Brooklyn healthy.

Clinical Affiliate of The Mount Sinai Hospital
Academic Affiliate of The Icahn School
of Medicine at Mount Sinai

Our Patient Portal is good medicine.

Please encourage your patients to register on our Patient Portal on www.tbh.org.

Once registered, our patients can check their personal medical records anywhere, anytime using a computer, smartphone or tablet.

The Patient Portal—which is completely free and open to anyone in the community—provides secure messaging options, lab results, Rx refill requests and more.

Please contact the IT Help Desk at (718) 250-8333 with any questions or comments.
